NEWS RELEASE

Vancouver, B.C. – October 10, 2014 - RT Minerals Corp. (the “Company”)(TSX.V: RTM). Further to its news release of May 14, 2014 the Company announces that the exploration agreement with respect to the Mahdia gold property in Guyana (the “Property”) entered into by the Company’s subsidiary RT Minerals Corp (Guyana) Inc. (“RT Guyana”) has terminated in accordance with its terms.

During the term of the agreement RT Guyana was unable to carry out exploration activities on the Property due to the existence of force majeure conditions, which included inclement weather conditions and inability to access the Property.

The Company has been advised that the owner of the Property has commenced action against RT Guyana to enforce payments it alleges were due to the owner by RT Guyana. The Company believes such action is without merit.
