## **1. NATURE OF OPERATIONS AND GOING CONCERN**

RT Minerals Corp. (the “Company”) was incorporated under the Business Corporations Act of British Columbia on March 9, 2007. The Company’s business activity is the exploration and evaluation of mineral properties in Canada. The Company is listed on the TSX Venture Exchange (“TSXV”), having the symbol RTM-V, as a Tier 2 mining issuer.

The address of the Company’s corporate office and principal place of business is Suite 1210 - 1130 West Pender Street, Vancouver, British Columbia, Canada.

As at August 31, 2022, the Company had not yet determined whether the Company’s mineral property assets contain ore reserves that are economically recoverable. The recoverability of amounts shown for exploration and evaluation assets is dependent upon the discovery of economically recoverable reserves, confirmation of the Company’s interest in the underlying mineral claims, the ability of the Company to obtain the necessary financing to complete the development of and the future profitable production from the properties or realizing proceeds from their disposition. The Company has not generated revenue or cash flows from operations and has accumulated losses of \$16,795,719. The Company’s ability to continue its operations, develop its properties and to realize its assets at their carrying values is dependent upon obtaining additional financing and generating revenues sufficient to cover its operating costs. These factors form a material uncertainty which may cast significant doubt upon the Company’s ability to continue as a going concern.

These consolidated financial statements do not give effect to any adjustments which would be necessary, should the Company be unable to continue as a going concern and therefore be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in these consolidated financial statements.

The outbreak and spread of a novel coronavirus (COVID-19), declared a pandemic by the World Health Organization, has already had significant human, political, and economic consequences around the world. The coronavirus is still evolving, and its full impact remains to be determined. However, its wide-ranging effects include financial market volatility, interest rate cuts, disrupted movement of people and goods, and diminished consumer confidence. The effects of the coronavirus may be difficult to assess or predict with meaningful precision both generally and as an industry or issuer-specific basis. This is an uncertain issue where actual effects will depend on many factors beyond the control and knowledge of the Company.

## **2. BASIS OF PREPARATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

### **Statement of Compliance**

These condensed consolidated interim financial statements for the nine month period ended August 31, 2022 have been prepared in accordance with IAS 34 Interim Financial Reporting. They do not include all disclosures that would otherwise be required in a complete set of financial statements and should be read in conjunction with the Company’s 2021 annual financial statements which have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”).

## **2. BASIS OF PREPARATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

The condensed consolidated interim financial statements have been prepared using accounting policies consistent with those used in the Company's 2021 annual financial statements except for new standards, interpretations and amendments mandatorily effective for the first time from January 1, 2021. Note 2 sets out the impact of new standards, interpretations and amendments that have had a material effect on the financial statements.

The condensed consolidated interim financial statements were authorized for issue by the Board of Directors on October 28, 2022.

The preparation of condensed consolidated interim financial statements in compliance with IAS 34 requires management to make certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies. The areas where significant judgments and estimates have been made in preparing the financial statements and their effect are disclosed in Note 3.

### **Basis of Consolidation**

The consolidated financial statements include the accounts of the Company and its wholly-owned dormant subsidiaries, Catharine Gold Inc. ("CGI") and RT Minerals Corp (Guyana) Inc. ("RTMG"). RTMG was incorporated in Guyana. Inter-company balances and transactions, including unrealized income and expenses arising from inter-company transactions, are eliminated on consolidation.

### **Foreign Currency Translation**

The presentation currency and functional currency of the Company and its Guyana subsidiary is the Canadian dollar as this is the principal currency of the economic environment in which they operate. The Company's Guyana subsidiary is financially and operationally dependent on the Company. The Company translates transactions in foreign currencies into Canadian dollars at the rates of exchange prevailing at the dates of the transactions. Monetary assets and liabilities are translated at the exchange rates in effect at the consolidated statement of financial position date. Non-monetary assets and liabilities are translated at historical rates. The resulting exchange gains or losses are recognized in comprehensive loss.

### **New Accounting Standards, Interpretations and Amendments to Existing Standards**

A number of new or amended accounting standards are scheduled for mandatory adoption on or after December 1, 2022. The Company has not early adopted these new standards in preparing these consolidated financial statements. These new standards are either not applicable or are not expected to have a significant impact on the Company's consolidated financial statements.

## **3. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS**

There have been no material revisions to the nature of judgments and amount of changes in estimates of amounts reported in the Company's 2021 annual financial statements.

On March 22, 2021, as amended on May 14, 2021, the Company entered into a Share Purchase Agreement to purchase all of the issued and outstanding shares of CGI, a private company, for consideration of 21,000,000 common shares of the Company. The Company completed the acquisition of CGI on July 14, 2021 and the shares were issued with a fair value of \$1,470,000. The shares were subject to a multi-year escrow release under a TSXV Tier 2 Escrow Surplus Agreement (the "Escrow Agreement", Note 6(e)). CGI held the mineral rights to 9,944 hectares of mineral properties (the "Catharine Gold Property" or the "Claims") contiguous to the Company's optioned Link-Catharine RLDZ property. The Company abandoned the Catharine Gold Property and returned the Claims to the Crown effective April 12, 2022 as it was unable to reach an agreement with the original vendors to return the Claims to them.
